Master Point Press. Paperback. Book Condition: new. BRAND NEW, Bridge, Probability and Information, Robert F. Mackinnon, While firmly rooted in mathematics, this is a book that aims to be accessible to any bridge player. It develops ideas about probability and information theory and applies them to bridge in a way no previous author has done. Concepts such as Vacant Spaces, Restricted Choice and how splits in one suit affect the probabilities in other suits, are discussed in depth. Readers will emerge with a much better understanding of how to apply these ideas at the bridge table, and with some very practical rules and advice that will make them more successful players.
