Pub Date: Unknown in Publisher: Higher Education Press List Price: 69.00 yuan Author: Publisher: Higher Education Press ISBN: 9787040322842 Page: Revision: Binding: Folio: Published :2011-11-1 Printing time: words: Product ID: 22552034 About this book is f. Klein's famous book Mathematics in the 19th century. the development of the second volume. Different with the first volume. which is devoted to invariant theory and relativistic mathematical source. that the mathematical theory of relativity prehistory. including Klein's own research. Mathematically speaking. the special theory of relativity can be said that is not in the the lorentz transformation group under variable theory. general relativity can be said that the general point transformation group invariant theory. In this sense. the theory of relativity and Klein erlangen Programme in their thinking is the same strain. The theory of relativity and the mathematics of the 19th century in terms of ideology and history for the first time in this book has been discussed in detail. This book is no longer the order of time to develop about variable but will not the theoretical physics Guilong to do with the system about. Today. it still is learning an excellent textbooks invariant theory and its application to study mathematics and physics students and teachers have a high reference value for interest in the development of mathematics and science. ideology and culture readers. About the author: F. Klein F. The Klein (F.Klein .1849-1925) half of 19th century to the early 20th century. one of the most important mathematicians. Best known for his contribution may Erlangen Programme geometry. but is actually far more than that. but throughout the geometry. algebra. complex analysis. group theory and mathematical physics. He has always...
