Based on cutting-edge medical breakthroughs, Recover Your Health combines four topics that can help you shed stubborn and unwanted pounds, dramatically increase your energy and vitality, protect you against cancer, and slow the aging process. If you answer yes to any of the following, something may be interfering with your body's ability to restore itself back to its normal state: Are you groggy in the morning or tired throughout the day? Are you exercising and eating well without losing weight? Do you have pain somewhere in your body that you are not getting relief from? Do you have a health condition that has not been helped with conventional medicine? Does your brain feel foggy with a lack of mental clarity? You are not alone.
