In a true critical approach, each chapter problematizes a new facet of academic assumptions and practices as they touch the lives of students. The authors explore the ethical implications of acknowledging student spirituality and expanding the role of critical education studies. The book concludes with a transparent self-critique on the process and ethics of graduate students writing for publication. This is a wonderful text, guiding students and professors as they enter into dialogue on the ethics of an authentic critical education studies. Classes on practical ethics, educational spirituality, student voice, collaborative publishing, and critical pedagogy could benefit from the insights offered here. Daring to believe that student experience and knowledge have a place in the world of academic publishing, this book is both a prophetic proclamation of and humble invitation to a new future in the field.
