Next Revolution in Our Credit-Driven Economy: The Advent of Financial Technology (Hardback)

By Paul Schulte

John Wiley Sons Inc, United States, 2015. Hardback. Book Condition: New. 235 x 162 mm. Language: English . Brand New Book. Go inside the research to see the global consequences of unethical banking The Next Revolution in our Credit-Driven Economy: The Advent of Financial Technology integrates market theory and practice to help investors identify growth opportunities, and to help regulators create a sustainable economic environment. Author Paul Schulte, former economic analyst with the National Security Council, draws upon his own decade-spanning research to demonstrate how unethical banking practices provide the brute force that drives political and economic crises worldwide. By unbundling how credit markets work, this authoritative guide provides deep insight into crisis avoidance and detection, successful investment climates, and the groundwork that must be in place for policy makers to build a sound basis for economic growth. Clear, succinct case studies provide examples of policy and its effects on economic stability, giving you a stronger understanding of the network of forces that determine how loan/deposit ratios behave around the world. Countries that lend more than they save consistently get into trouble, with catastrophic consequences for the rich and middle class as well as the politicians. This book shows how...
