

## Biology Now!: Ages 11-14: Pupil's Book (2nd New edition)

Filesize: 6.71 MB

### Reviews

*This is actually the finest ebook we have go through until now. It is written in straightforward words and phrases instead of difficult to understand. Its been designed in an remarkably straightforward way and is particularly just following i finished reading through this book by which basically changed me, change the way in my opinion.*

*(Gillian Wisoky)*

Hodder Education. Paperback. Book Condition: new. BRAND NEW, Biology Now!: Ages 11-14: Pupil's Book (2nd New edition), Peter D. Riley, Biology Now! 11-14 is one of three Pupil's Books that cover the requirements of the National Curriculum for science at Key Stage 3, the Common Entrance Examination at 13+ syllabus and equivalent junior science courses. Based on Biology Now! 11-14, the clear text and colourful illustrations and photographs fully explain the concepts and encourage background reading. Boxed sections are used to show how scientific ideas have developed and how they are applied in today's world. Throughout there are numerous questions that test a range of skills including comprehension, application, analysis and evaluation. These may be used as a basis for classwork or homework. There are also 'For discussion' sections to encourage group discussion. In this second edition the Chapters have been reorganised to reflect the QCA Scheme of Work. There is also additional information on types of tissue, parental care in different organisms, daily adaptations in plants and animals and a new chapter on Plants for Food. Each book has a glossary and is supported by a Teacher's Resource Book that contains details of practical work.
